

Committee on Rules
U.S. House of Representatives
H-312 The Capitol
Washington, DC 20515-6269

October 12, 2020

Dear Rep. Levin,

The 116th Congress has faced unprecedented challenges that made the work of the legislative branch more consequential than ever. As we come to the end of this historic legislative session, I write to thank you for all the thoughtful amendments you submitted to the Rules Committee. These amendments demonstrate your passion for serving the people you represent! Your hard work has led to you having the second most amendments made in order among freshmen Members of the House! I want to especially highlight your amendment to H.R. 729, which required the U.S. Fish and Wildlife Service to research the effects of PFAS chemicals, mercury, and other contaminants on fisheries and fishery ecosystems in the Great Lakes Basin region. This amendment showed your continued dedication to protecting the public health of your constituents and a vital industry of your great state.

I appreciate your continued effort to submit amendments that improve legislation and I look forward to working with you in the 117th Congress and beyond!

Sincerely,

A handwritten signature in blue ink that reads "James P. McGovern". The signature is fluid and cursive, with the first name "James" and last name "McGovern" clearly legible.

James P. McGovern
Chairman
Committee on Rules
